

TABLE 1 BERMAD SIGMA SERIES 700 CONTROL VALVE RANGE

Model No.	Function
710	Single solenoid control valve
718	Dual solenoid control valve
720	Fixed outlet pressure reducing valve
730	Pressure sustaining valve
735	Surge anticipating control valve
73Q	Pressure relief valve
740	Pump control valve
750-60	Level control valve (pilot type 60)
750-66	Level control valve (pilot type 66)
750-80	Altitude control valve
770	Rate of flow control valve

700 Sigma EN

700 Sigma ES

Model 700 EN/ES hydraulically operated oblique pattern control valves with high cavitation resistance

Model 710 EN/ES Hydraulically operated solenoid controlled valves that either fully opens or shut off in response to an electric signal

Model 713-08 Electronic controlled valve

Model 720 EN/ES Pressure Reducing Valve

Model 730 EN/ES Pressure Relief and Sustaining valve

Model 735-M EN/ES Surge Anticipating Valve

Model WW-73Q Quick Pressure Relief Valve (Irrigation application)
