Dear Mr. Stalio,

RE: Crushed Rock Mix Registration – Aurora Mt Cottrell/Rockbank

In reference to your request for registration of a crushed rock mix from the above facility, VicRoads has reviewed the information provided and has registered the mix with the details as outlined below:

Mix Size and Type	Mix Number	Mix Registration Status	Expiry
20mm CI2 CR	ACM 20CI2 2016-1	<i>General</i>	02/09/2018

At the end of the registration period, VicRoads will review the performance of the crushed rock mix, and you will be requested to seek re-registration of the mix. If your company wishes to change the source of any component of the above mix at any time during the next two years, you will need to seek re-registration of the new mix.

Should you have any queries or seek further discussion in relation to this matter, please contact the undersigned.

Yours Sincerely

Sven Scheppokat
Quarry Products Technologist

Notes: Please refer to the notes on page 2

All crushed rock mixes and crushed concrete mixes proposed for use on VicRoads works are required to be registered by VicRoads in accordance with VicRoads Code of Practice RC 500.02.

All mix designs registered with VicRoads are issued a status according to compliance as General, Conditional or Expired. Definitions of the above terms are provided within the Code of Practice.

Registration of a crushed rock or crushed concrete mix does not guarantee the handling properties or performance of the mix nor relieve the Contractor/Supplier of any contractual obligations in regard to rectification of defects. Contractors/Suppliers are reminded that all specified requirements for the crushed rock or crushed concrete product must still be consistently met.
